CSC Technology

▶ CSC is a global leader in providing technology-enabled solutions and services through three primary lines of business. These include Business Solutions and Services, the Managed Services Sector and the North American Public Sector. Whether it's supporting troops, modernizing and protecting infrastructure, supporting IT systems, or improving services to citizens, CSC works in many industries. CSC recognizes the value, loyalty, diversity and strong work ethic of

America's military community. Veterans, injured military veterans, wounded warriors, separating active duty service members, National Guard members, Reservists and military spouses can take advantage of the many opportunities offered to them by CSC. "We pride ourselves on our robust military recruitment program and are honored to be among the Top 100 Military Friendly Employers®," said Gus Siekierka, vice president of human resources for CSC. •

Constellation Energy Nuclear Group Energy

▶ Constellation Energy Nuclear Group (CENG) is one of the nation's premier nuclear power plant owners and operators, demonstrating that nuclear power is reliable, cost-effective and environmentally friendly. Constellation continuously develops a learning and safety culture at its operating units. "Separating and former service members are ideal nuclear employees because they

personify similar work ethics and values, such as performing work in accordance with safety and health procedures," said Maria Korsnick, chief operating officer, Constellation Energy Nuclear Group. "Once they join CENG they will find their leadership skills, integrity and ability to work within a unified team, an essential part of our culture." •

Sunoco Logistics Partners L.P. Energy

► Headquartered in Philadelphia, Sunoco Logistics Partners L.P. (NYSE: SXL) engages in the transportation and storage of refined petroleum products and crude oil. The company operates about 6,000 miles of refined products and crude oil pipelines and, principally in the Southwestern U.S., also gathers, purchases, sells and transports crude oil. In addition, Sunoco Logistics’ terminal facilities consist of approximately 30 million shell barrels of refined products and crude

oil terminal capacity (including approximately 17 million shell barrels of capacity at the Nederland Terminal on the Texas Gulf Coast).

Sunoco Logistics is committed to assisting transitioning military personnel into careers with the company, as military veterans have the leadership, discipline and technical talent that have proven successful to the operation of the company’s assets. •

Fugro Construction

► Fugro collects and interprets data related to the Earth’s surface and the soils and rocks beneath and provides advice to the oil and gas industry, the mining industry and the construction industry.

Fugro hires veterans because they have proven to be adaptable, self-confident, mature and experienced – they’ve earned our respect.

“Many leaders of our great country are and have been veterans; they’ve served in the public and private arena dating back hundreds of years,” said Scott Rainey, Fugro USA president. “It’s only logical for Fugro USA to recruit from a world-class group of professionals. The hiring of Armed Forces personnel fits into our business strategy of being the world’s leading company in our industry.” •
